## CAREER OBJECTIVE

I want to become a web developer and cyber security expert.

## WORK EXPERIENCE

### Front End Development • Internship

IBM INTERNSHALA, Virtual

Jun 2024 - Jul 2024

Making a no-poverty website based on frontend  
Which tells the situation of poverty in the world

### Front End Development • Internship

Codesoft, Virtual

Jun 2024 - Jul 2024

Making 3 different pages based on frontend

## EDUCATION

### B.Tech, Computer Science & Engineering

Maharshi Dayanand University

2022 - 2026

## TRAININGS / CERTIFICATIONS

### Ethical Hacking

Aug 2024

Indian Cyber Club, Virtual

This is a workshop for cybersecurity/ethical hacking where we learned a lot about cybersecurity. We learned how to use different tools and how we can defend ourselves from cyber fraud.

## PORTFOLIO

[GitHub link ↗](#)

[Blog link ↗](#)

## PROJECTS

### [Chat-App ↗](#)

Feb 2025

This is a website in which we can discuss our doubts in different channels

### [LinkTree ↗](#)

Nov 2024

This is a basic LinkTree which contains all my social media accounts like Instagram, Twitter  
Also it contains links of my GitHub profile and LinkedIn profile.

### Cybersecurity

Sep 2024

I made a keylogger using python. Basically running the script in the backend in any system I can get all the credentials that the user fills.

### [URL-Shortener ↗](#)

Feb 2025

In this we can shorten our URL according to our convenience

### Cybersecurity

Sep 2024

I made a tool for brut forcing passwords using python.

### [Blogging website ↗](#)

Sep 2024

I made this website in Next Js (react)  
Also I used Pieces for developers which is an amazing app.  
I used Next.js, react, Pieces for developers and used vercel to deploy it

## Ethical hacking Tool

Aug 2024

I made a tool to scan all the ports of a system just like nmap. Vmap scans all 65535 ports and gives us all details of which port is open and which is closed

## [Password manager ↗](#)

Jun 2024

A password manager which stores data in the mongodb server  
Project of both Frontend and backend development

## [To-do list ↗](#)

Apr 2024

Making a to-do list so that we can store daily routine in that

## SKILLS

- HTML
- CSS
- JavaScript
- Node.js
- ReactJS
- Next.js
- Express.js
- Cybersecurity
- Bootstrap

## EXTRA CURRICULAR ACTIVITIES

- Runner up in INTERSTATE BASEBALL CHAMPIONSHIP.
- Leading the team of 6 members in hackathon.
- Leading the team of 5 members in the Internship

## [No-poverty Website ↗](#)

Jun 2024 - Jul 2024

A website based on frontend Development which represents the situation of poverty in the world and solutions how to solve poverty

## [Twitter clone ↗](#)

May 2024

A Frontend based page
